

Supply List for Mrs. Emmons's Algebra 1 Classes:

🐾 **Composition Notebook** (NO SPIRAL NOTEBOOKS)

**College ruled pages are preferred (we can fit more amazingness on them).

(You can decorate the outside if you want, just leave the inside alone – I've got BIG PLANS for that part! 😊)

🐾 **3-Ring Binder** (2-inch is good – I would prefer that you use this for ALGEBRA ONLY. If you want to put multiple subjects in the same binder, please get one of the bigger, 3-inch binders)

🐾 **HUMONGOUS, GINORMOUS, TOWERING, INSANE Supply of Loose-Leaf Notebook Paper**

Stock up now while it's **cheap!** We will have homework every night and you are required to show work...yes, all the time...so you'll need lots of notebook paper. (PS – I would recommend keeping the extra packs of paper AT HOME! The lockers here are like black holes – no one has any clue where extra stuff goes...)

🐾 **Pencils with Erasers** (or pencils and a big eraser...whatever works for you! You just have to be able to erase the mistakes you make...and we're gonna make mistakes...it's math for crying out loud! Have you seen this stuff??? 😊)

🐾 ****TI-83/84-Plus Graphing Calculator** Right now you can get one of these bad boys for between \$80-\$100 They go up to about \$120 once all of the “Yay! School's Back in Session!” sales end...so now is the time to grab one. (FEAR NOT! You will use this calculator from now until you graduate!)

(If you cannot afford one of these, the TI-30X-IIS calculators you used in middle school will work, too. We will also have a few graphing calculators students can use during class, but they will not be permitted to leave the classroom)

🐾 **Hi-Liter** (at least one...more if you want to get a little crazy)

🐾 **Colored Pens or Thin Markers** (optional...but will make **life** (pronounced “math”) WAAAAY more exciting 😊)

You need these supplies

EVERY DAY!
